

## Student Nominations & Screening Process

### Nominations Acceptance and Screening Process

The Kshatriyas Organization accepts Student nominations for free education back home in India during March/April of every year. We request our members to send in their nominations from their villages, towns and cities. This process gives us the ability to reach back to our homeland and help the people in Need. No merit student should be left behind because of his/her inability to pay for college.

Once we receive the nominations, we follow a thorough screening process. We make sure the Student's ability to get admission and his/her need for financial aid.

Students should be able to get admission in respective courses based on their marks/rank. After the Student and the Organization agrees for the college and course, our selection committee offers financial aid as needed.

### Education Performance Required for all Admissions

Student should be able to secure Admission based on Marks/Rank

Up to High School – Marks List from Previous Year

Intermediate – 10th Marks List

Engineering/Medicine Admissions

- Intermediate Marks List
- EAMCET Rank to secure Admission
- Ranks from other admission Tests

### Don't have means to continue education

Needs to be Attested. Ex: Village Panchayat President,  
High school Head Master, etc.

Take the Parent's consent.
